

MGS TAG Action Items

Action Items 2016-2017	Status, September 2018
1. <u>Detector Dogs</u> : Maryanne (Huizing) will share H.T. Harvey & Associates detector dog team contact names with Liana	Delete. Continue to have detector dogs as a potential agenda item in future TAG meetings
2. <u>Camera-trapping survey recommendations</u> : Individuals are asked to provide feedback to Dave Delaney about their camera settings.	Tabled; Scott to contact Dave about this.
3. <u>Survey Protocol revisions for MGS health and welfare</u> : Bruce and Scott will continue to discuss some of Bruce's other recommendations.	Carry
4. Everyone is encouraged to submit their trapping techniques to Scott see what works best.	Ongoing
5. <u>Standard Conservation Measures</u> : Ed will send the current version of this table to Scott, Bruce, Don, Tom, and Benessa.	Scott to check with Ed LaRue, Aga Napiatek, Benessa Espino
6. Ed asked that Scott and CDFW biologists provide feedback if he and Aga are on the right track with the measures already addressed.	Combine with previous item; Carry
7. <u>Qualified Biologist Form</u> : Denise, Brad Haley, and Ed agreed to complete the form to see how well it works.	Scott to check with CDFW regional biologists
8. Scott will work with CDFW biologists to get feedback from them.	Combine with previous item
9. <u>MGS Clearance Surveys</u> : Liana said she would begin developing a tentative clearance survey protocol to be considered by the MGS TAG.	Scott follow up with Liana
10. <u>MGS Awareness Program</u> : Ed will contact the cinema photographer to see if he can resume this effort.	Carry until Ed attends TAG meeting.
Action Items 2017	Status, September 2018
11. Becky Jones will work with Kathy Simon to see if rainfall data are being collected at the Lockheed facility at Helendale.	Carry; Becky hasn't heard back from Kathy
12. Scott Osborn and or Dave Delaney can provide Cody Hanford with recordings of MGS calls so they can train their field personnel.	Additional work needed to gather and post online various species recordings.
13. Scott Osborn will follow up with Redhorse on their intent to trap in 2018.	Camera trapping, not live trapping. Phil said CEMML and Colorado State plans to conduct live-trapping in 2019.
14. As per Action Item 18, Liana Aker has indicated she would provide a draft clearance survey protocol.	Delete, repetitive.
Action Items 2018	Status, September 2018
15. Becky Jones to look into rainfall data in solar project areas	Ongoing. Becky Jones hasn't been able to do it. Phil mentioned Erica has been able to get rainfall

	data from Oregon State, modeled work not actual data. Fine detail. Phil thinks it is a good source to use. Erica said you can use specific site. Erica can provide information how to use and provide a one page summary on how to use the website.
16. Scott to look into survey protocol for CDFW TSSM	Scott to talk with Lindsey Rich.
17. Ed LaRue requested that Scott announce that the bibliography exists and to email him with updates	Ongoing, posted on TAG website
18. Phil/Dave Delaney/and Dave Hacker finalized a protocol and it is at the point where the protocol should be submitted to the TAG group for final review	Dave said it's ready for TAG to review. Scott can distribute to TAG and will do so after the meeting.
New Action Items September 2018	Status
19. <u>Food plant ID from scat samples</u> . Erica Orcutt to check with NAU lab (Faith Walker) about scat sample handling and storage requirements.	
20. Erica will review MGS food plant list and compare with sequence availability in genetic database to see what's missing.	
21. <u>Rainfall records</u> . Erica will prepare a short "user's guide" to PRISM data download and use.	
22. <u>Next meeting</u> . Scott will send a doodle poll in October to determine whether the spring meeting will be at the TWS-WS conference in early February or in Ridgecrest in late March.
