

THIS PRESENTATION WAS GIVEN BY MANFRED  
KITTELL CDFW, AT A MEETING OF THE STATEWIDE  
COHO RECOVERY TEAM, APRIL 15-16, 2014

# The Year of the Jack

## Coho Recovery Team Update

Bay Delta Region

April 16, 2014

# Monterey Bay Salmon and Trout Project

## Spawning 2013/14

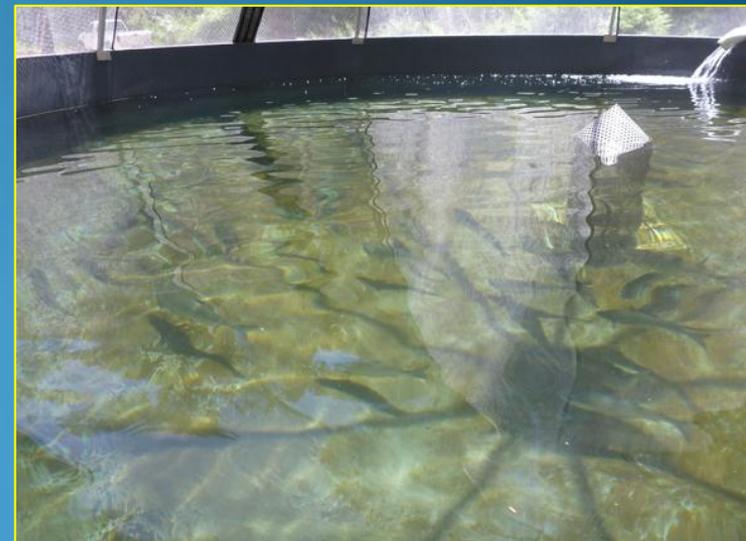

- 47 females spawned (incl. 9 RR fem.)
- Total egg take: ~ 78,000

## Drought effects

- Blocked or delayed upstream migration, jacks from SLR used for spawning
- Mortalities at hatchery to all year classes due to water quality (fungus)

## Smolt Release Timing Experiment

- PIT-tagged smolts released in weekly intervals
- Second year
- 33 jacks from the 2013 release returned to Scott, San Vicente, Waddell and SLR

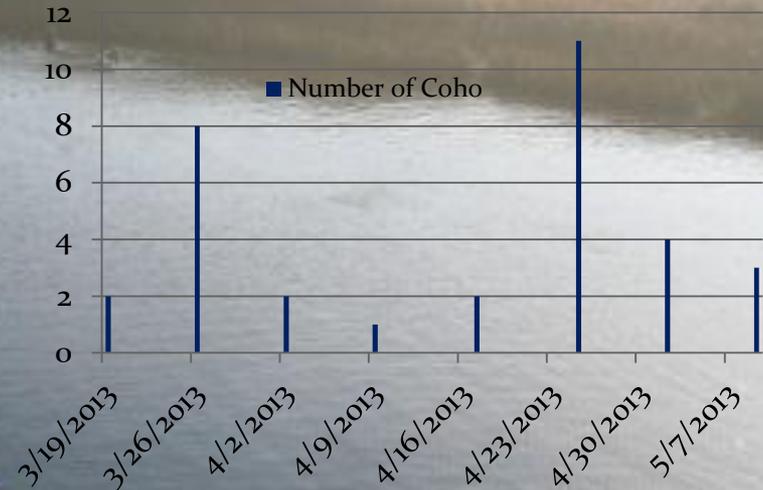

# Scott Creek Coho Returns

# Scott Creek Release Timing Experiment

## Preliminary Data

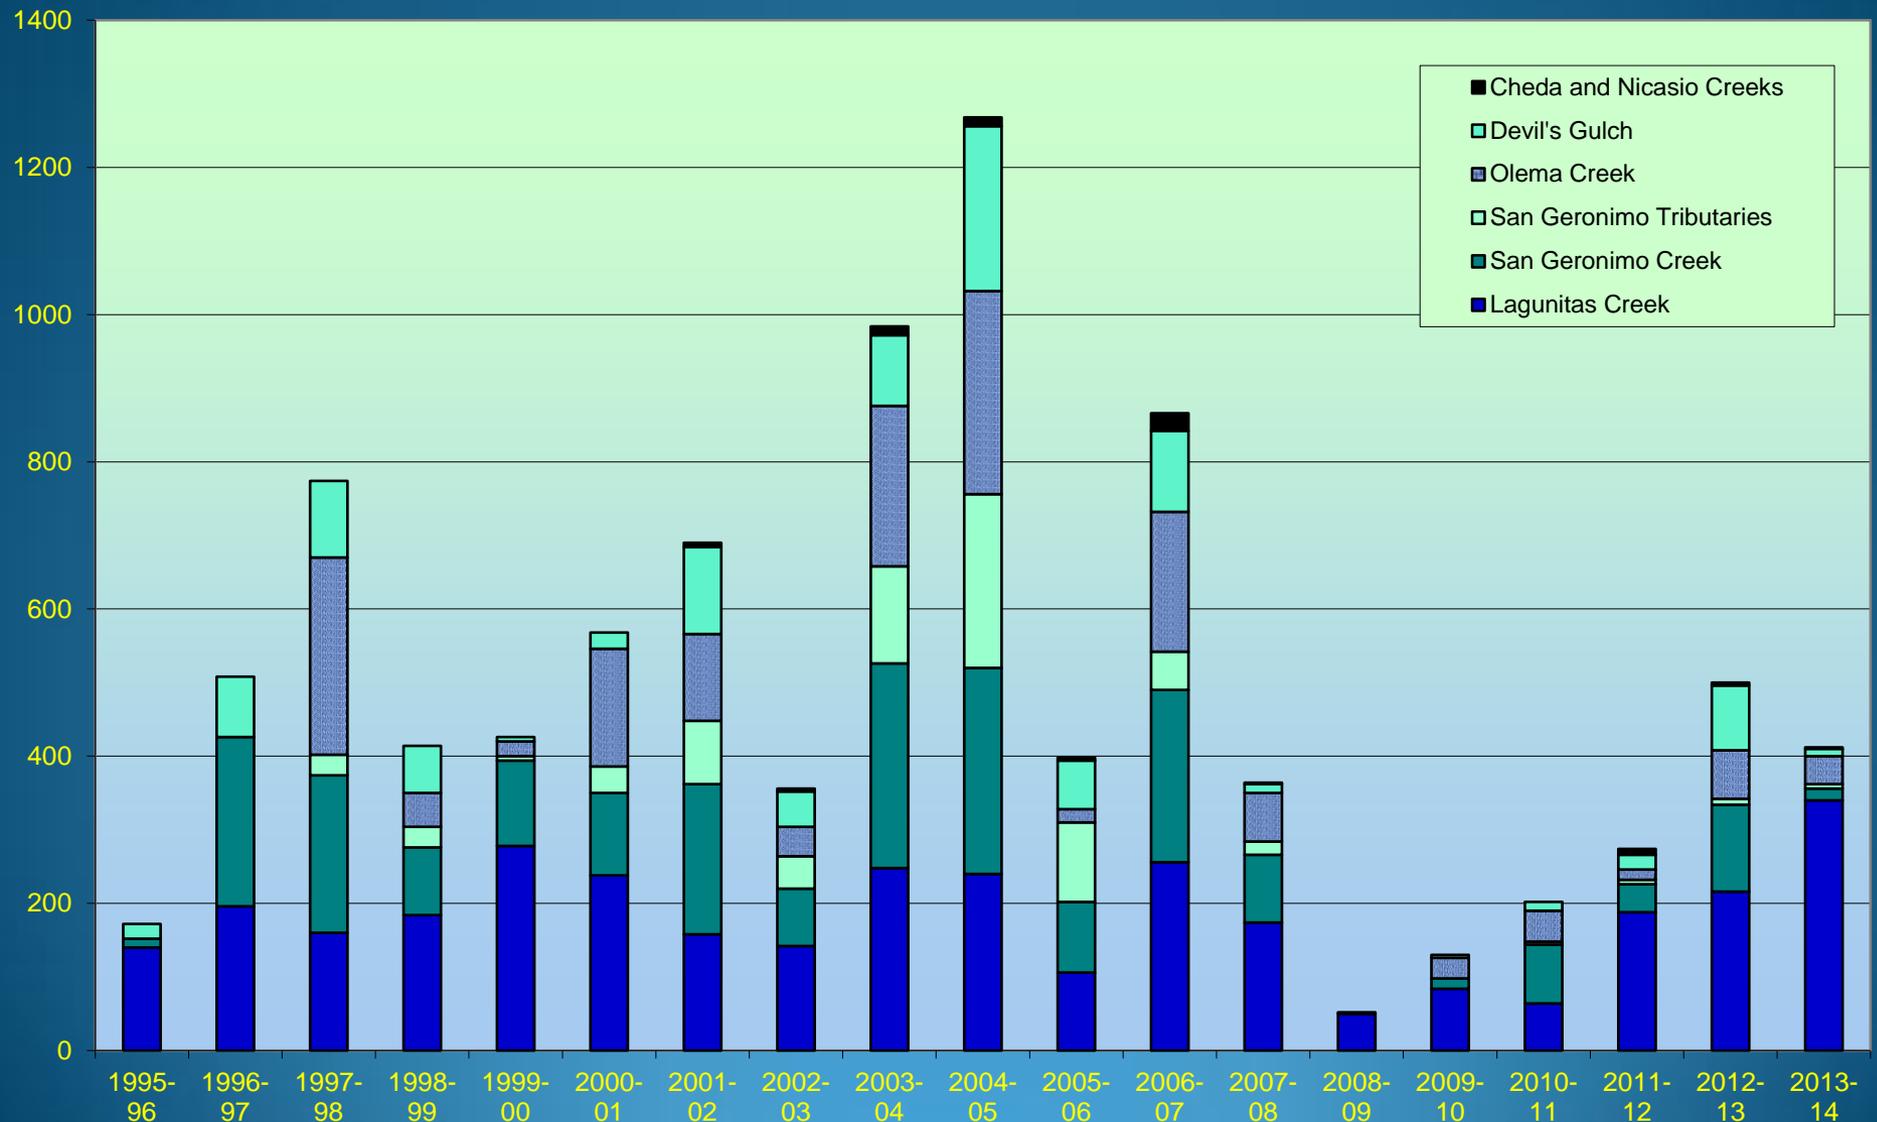

Number of Coho

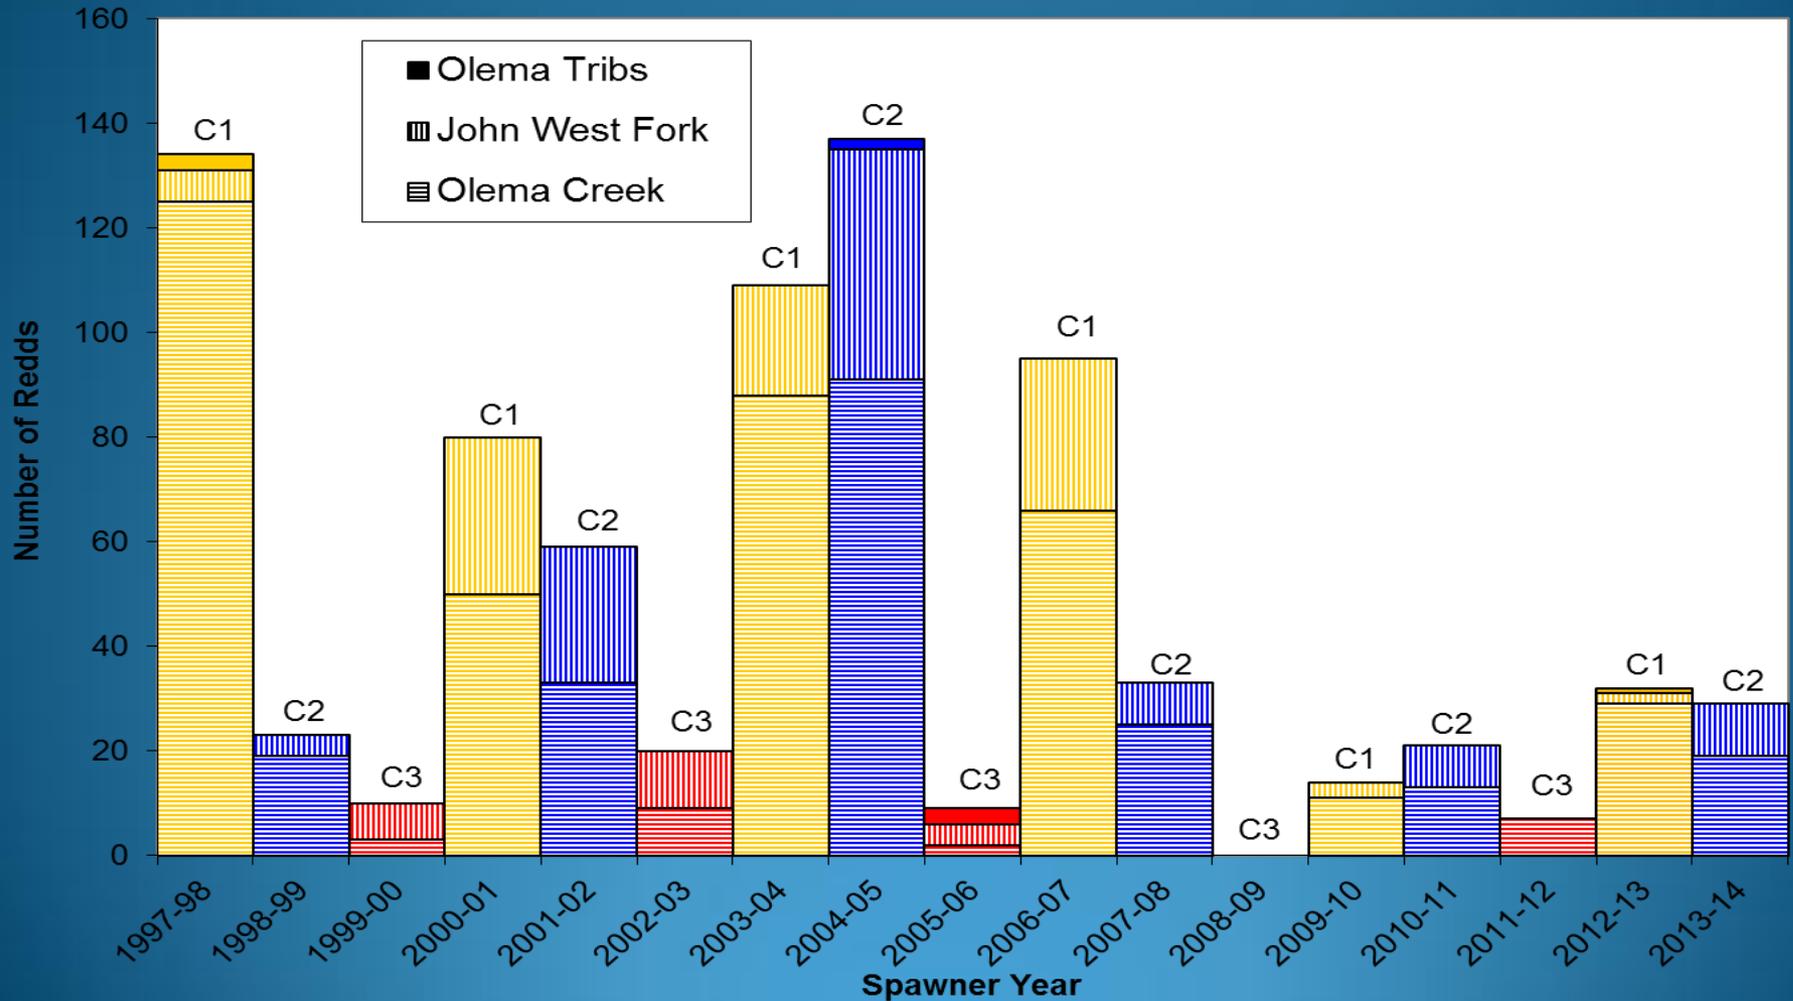

### Smolt Release Timing Experiment

- PIT-tagged smolts released in weekly intervals
- Second year
- 33 jacks from the 2013 release returned to Scott, San Vicente, Waddell and SLR

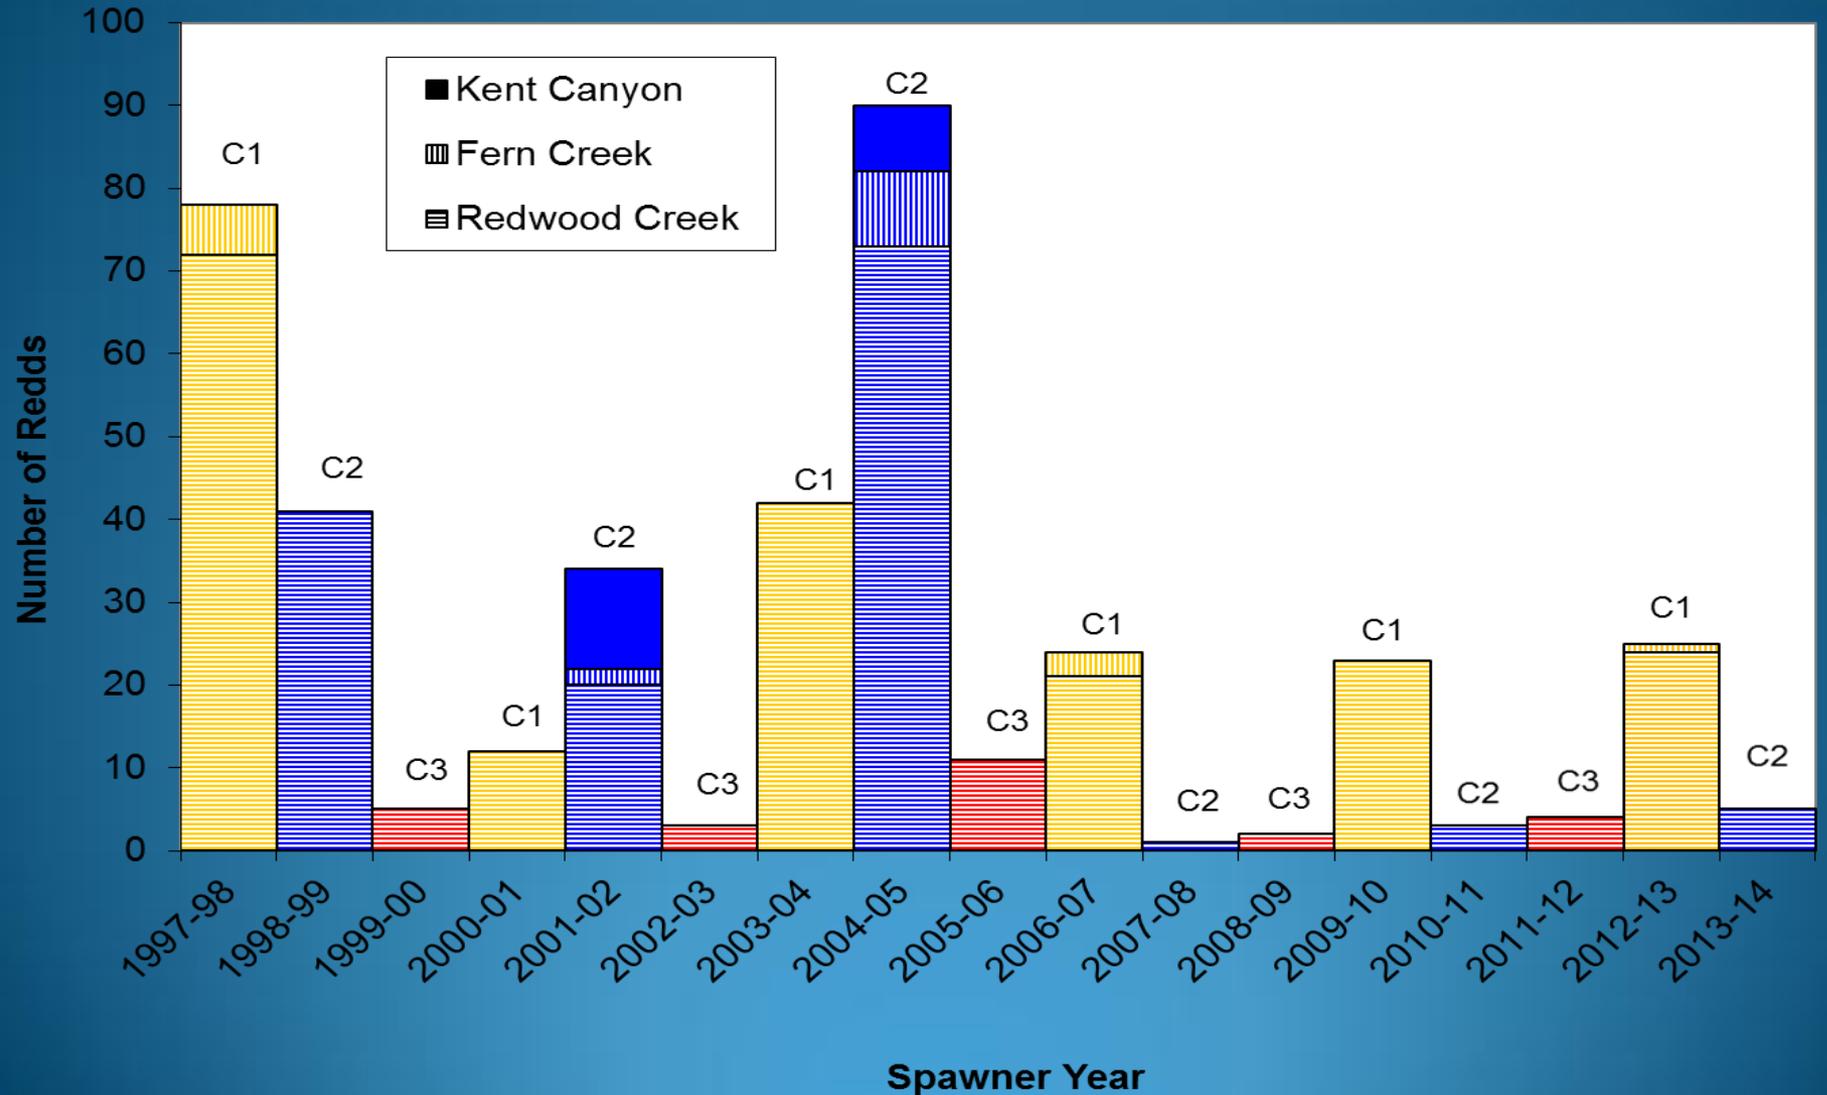

# Lagunitas Creek Coho Salmon Abundance

# Olema Creek Coho Salmon Abundance

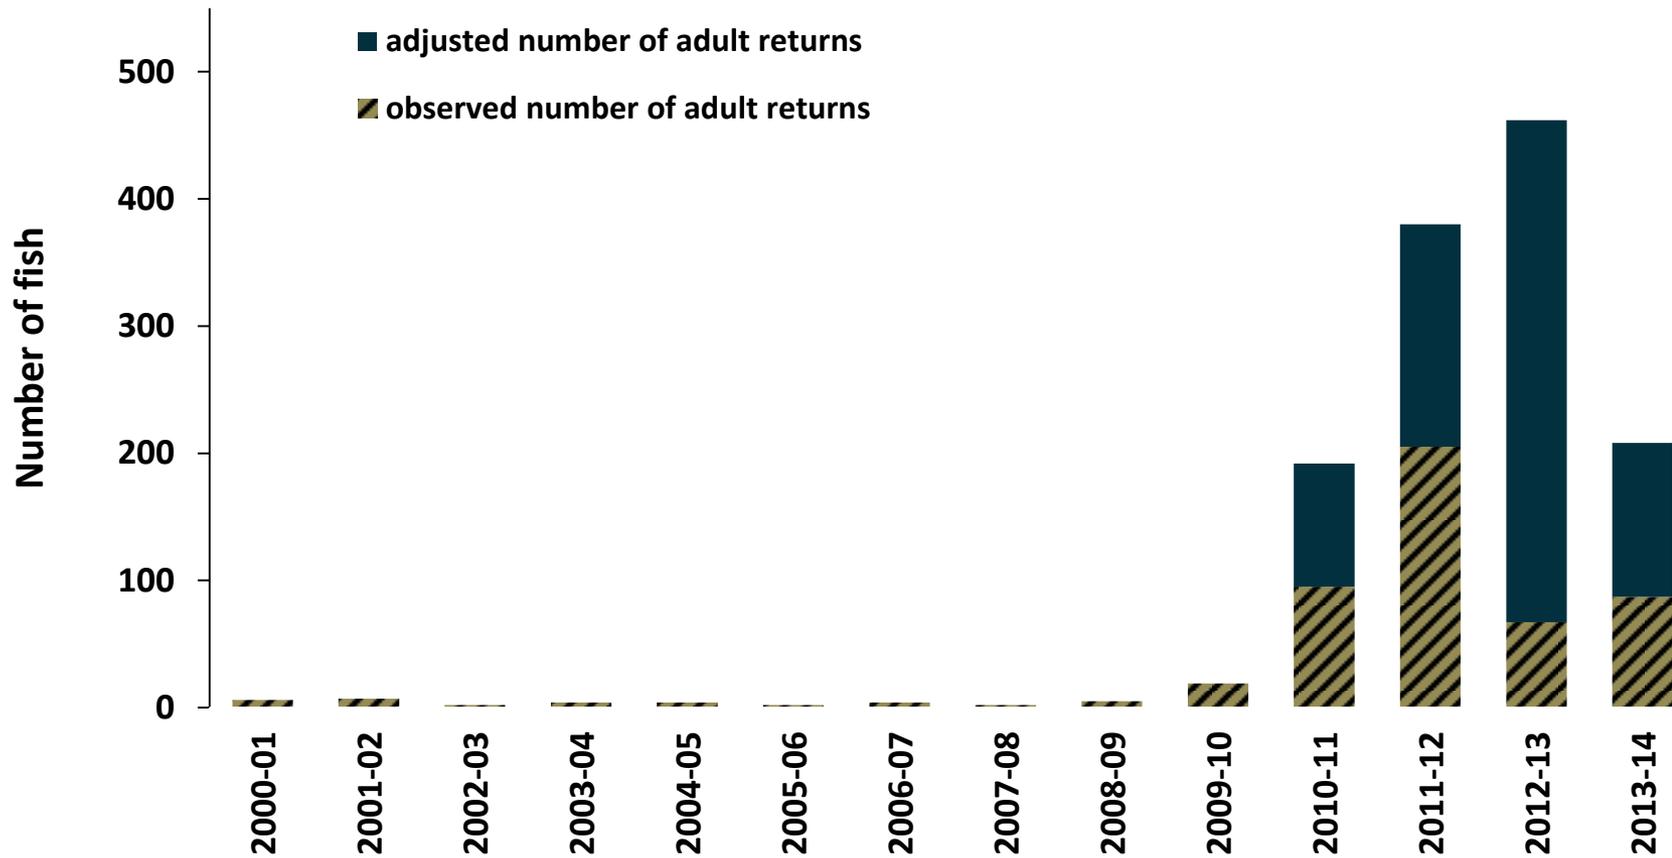

# Redwood Creek Coho Salmon Abundance

# Russian River Coho Salmon Captive Broodstock Program

Hatchery-origin adult coho returns to the Russian River basin

# Russian River Coho Salmon Captive Broodstock Program

## Spawning 2013/14

~200 female coho spawned (Russian River, Olema Creek, hybrids)  
231,500 fingerlings (record production)

## Outbreeding

Approx. 25% Olema Creek genetic ancestry

## Planned Releases in 2014/15

Spring: 45,500

Fall: 118,000

Winter: 20,000 (pre-smolts)

Spring 2015: 28,000 (smolts)

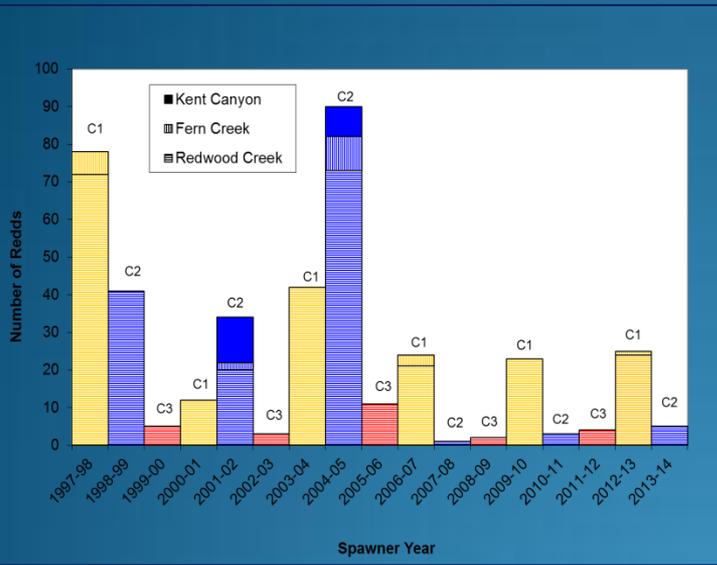

Total: 231,500, 22 tribes

# Redwood Creek Coho Salmon Captive Rearing Program?

## From Federal/State Recovery Plans

- Focus / Key Population
- Fed. down- / delisting targets: 136 / 272
- Fed. priority actions:
  - Develop a plan to re-establish abundance , while minimizing departure from the genetic profile ...
  - Evaluate supplementation strategies utilizing the existing population, ...

## From PACT

- Captive rearing target: 50
- Develop a rescue rearing program to re-stock fish as adults (or other captive rearing program).
